

- One of the most influential reading tools of the Information Age – the Amazon Kindle® – initially used PMN Caecilia as a standard font for its books.
- PMN Caecilia combines classical overtones with a contemporary vibe, creating a friendly and versatile slab serif family. Its large x-height, open counters, simple character shapes and sturdy serifs all contribute to the design's high levels of legibility.

WHAT TO LOOK FOR IN FONTS THAT PAIR WELL WITH PMN CAECILIA

- Virtually any sans serif design will pair well with PMN Caecilia. Geometric Sans, like [ITC Avant Garde Gothic®](#) and [Harmonia Sans™](#) and provide a powerful counterpoint, while Grotesques like [Helvetica® Now](#) and [Classic Grotesque™](#) complement PMN Caecilia's calligraphic overtones.
- If you choose a serif typeface, it should be obviously different from PMN Caecilia. Consider designs like [Albertus™](#) or [Quorum™](#)
- Avoid other Slab Serif and Clarendon designs, like [Egyptian Slate™](#), [Charter™](#) and [Rockwell® Nova](#)
