ABOUT THE FAMILY

- The original Univers fonts were the first typefaces to be developed as a cohesive typeface family (with consistent weight and proportion changes) from its onset. It had 27 different styles.
- Univers Next is a refined and updated version of the original Univers typeface family. The family was expanded 63 weights, providing a much larger framework to graphic designers for choosing just the right style. Univers Next Variable are font files featuring two axis and have a preset instance from Light to Heavy and Condensed to Extended.

WHAT TO LOOK FOR IN FONTS THAT PAIR WELL WITH UNIVERS NEXT

- Serif typefaces with distinctive design characteristics
- Slab or Clarendon typefaces with subtle to overt humanistic overtones
- Old Style typeface designs like Eloquence™ or Berkeley Old Style
- Avoid sans serif fonts but, some, like Harmonia Sans or Neue Kabl™, can pair well with Univers Next, if the weights of the two designs are dramatically different from each other.
